

Questions & Answers

What makes Waldo the Clown & Professor Steve a “ministry”?

In both cases, it is the content & the structure of the programs that make what I do a ministry. As Waldo, I am able to use the tools of a clown to teach the concepts found in the Bible in a very visual & a very effective way. As Professor Steve, I am able to use scientific demonstrations to show how the world around us works & how God fits in the picture. Everything that Waldo & Professor Steve do helps to point the audience members, both young & old, toward an understanding of God’s awesome power & love.

What can I expect in a Waldo the Clown & a Professor Steve program?

You can expect an exciting presentation that is always (1) age-appropriate, (2) rich in content & teaching, & (3) structured & visualized so that it is easily remembered.

Is all of this just for kids?

Not at all. Waldo presents many programs that involve everyone in the church, as well as programs involving just the adults. Waldo’s messages are definitely not just for kids. And as for Professor Steve, adults as well as kids (even very young kids) are captivated by the science experiments demonstrated in front of them.

Besides programs, do you have anything especially for Junior High & High School youth?

Workshops are great for older youth. They are not only fun, they teach the youth new & exciting ways to share Christ with others. Also, Steve is available to help you start a clown ministry group, something that works exceptionally well for older youth looking for a new & different kind of outreach group.

How about our teachers?

Another aspect of my ministry is working with adult teachers to help them to be the best they can be. No matter what ages your teachers work with, my goal is to help them to become better & more effective. With many subject areas to choose from, we can tailor a time with your teachers that will cover the things they really need.
